

Courtney Brousseau

Chief Communications Officer

Report For February 8, 2017

**Associated Students of the University of California**

## **Meetings Attended**

Communications Office Directors Meeting  
Graduate Assembly Mixer

## **Current Projects**

### ASUC Email Newsletter:

The first ASUC newsletter went out on 9/15 to all 3,600+ subscribers. The newsletter included information about upcoming ASUC events, ASUC resources, ASUC actions, and other information to keep students up to date on our progress. More than 1,800 people opened the email and many people clicked on the links and read to the bottom. You can subscribe to the newsletter at: <https://asuc.org/newslettersignup/>. The most recent newsletter went out yesterday.

### New Livestream System:

The new live streaming system for ASUC Senate meetings (and other official meetings) is installed as of Wednesday, August 24. The new equipment (funded by the Student Technology Fund) will provide a high quality stream so that meetings can be streamed and archived for transparency, accessibility, and institutional memory. Senate meetings will be live streamed from now on using the new system and they can be viewed at: [livestream.com/theASUC](http://livestream.com/theASUC)

### ASUC Tabling:

The ASUC will be tabling on Upper Sproul Plaza every week Monday Thursday from 11am 2pm, weather permitting. Tabling will be overseen by the Chief Communications Officer and the Tabling Director. Executives and Senators will all table for 1 hour each week. The purpose of the ASUC Tabling program is to strengthen the connection between students and their student government representatives on campus by fostering a culture of transparency of information. In addition, the tabling program should strengthen the internal culture of ASUC, encouraging ASUC elected officials and staff members to communicate and collaborate. Tabling will continue throughout the semester.

### New ASUC Website:

I am working with a few other members of the ASUC on redesigning the ASUC website. We are working on designing the new site now and we are hoping to launch at the start of next semester. You can view the test website at [dev.asuc.org](http://dev.asuc.org). If you have any feedback or suggestions, please send them my way ([communications@asuc.org](mailto:communications@asuc.org)).

### Unified Branding:

I've been working very diligently to make sure that all ASUC branding is cohesive and follows our branding guidelines. I am also working (more long term) on creating a more comprehensive branding book that includes more information and detail, similar the ASUC Student Union branding book. I am planning to meet with ASUC Programs soon (including SUPERB, OCF, Cal TV, and more) to unify their branding and make it clear that they are ASUC Programs. Meeting with the Programs has moved to the top of my priorities list.

## **Expenditures**

\$70 - supplies to decorate the ASUC office for the ASUC Student Union Open House
